Design
Figma, Photoshop, Adobe Creative Suite, Adobe Animate

AI tools
Claude, ChatGPT, GitHub Copilot

EDUCATION

B.S. Information Technology
Cebu Institute of Technology – University
2012 – 2017
Capstone: School Library Management System

PROFILE

Web Application Developer with 9+ years of experience building responsive websites, interactive web applications and e-learning platforms. Full-stack across HTML5, CSS3, JavaScript, PHP, MySQL and WordPress, with a focus on UI/UX, performance and maintainable code. Turns Figma and Photoshop designs into pixel-perfect, cross-browser interfaces, and uses AI tools to speed up development, debugging and refactoring.

EXPERIENCE

Web Application Developer — 2017 – Present

PV Multimedia Inc. · Cebu City

- Develop and maintain web applications for corporate and e-learning systems, working with designers to turn UI/UX concepts, storyboards and wireframes into responsive, production-ready interfaces.
- Built interactive banking simulation modules with dynamic graphs, balance-sheet calculations and financial reporting.
- Led the migration of legacy Adobe Edge Animate projects to modern native HTML, CSS and JavaScript.
- Integrated dynamic charts and dashboards with Chart.js; created responsive WordPress sites and custom front-end interfaces.
- Created animated 3D avatar tutors for educational content.
- Use Claude, ChatGPT and GitHub Copilot to accelerate development, debugging and code refactoring.

SELECTED PROJECTS

Fitforbanking Game Series HTML5 · JavaScript · PHP · MySQL
Browser-based financial-literacy simulation games on a shared engine, with leaderboards, PDF certificates and instructor-led sessions.

PVM Project Tracker PHP · JavaScript · custom MVC
Internal tracker for planning, tasks and progress across course, video and game pipelines, with real-time dashboards and reporting.

Game Projects Manager PHP · MySQL · custom MVC
Admin panel for deploying and managing game and web projects, with ZIP-based semantic versioning, a built-in database manager and full activity audit logging.

Interactive E-Learning Modules HTML5 · JavaScript · jQuery · PHP
Responsive modules with interactive quizzes, data visualisations, animations and progress tracking.

PERSONAL PROJECTS

TripSplit, **MykelHub**, **Lunelle** and **myKelKaraokeHub**: four React apps (three in TypeScript on Supabase with Postgres, Row Level Security and Auth) covering shared-expense splitting with offline support, a store credit and inventory ledger, a private cycle tracker with partner sharing, and a karaoke jukebox with a QR-code phone remote and in-browser scoring.

EARLIER EXPERIENCE

Technician (Intern) · Channel Technologies Inc. — Oct 2016 – Mar 2017

Technician (Intern) · Cebu City Hall, MICS Department — Apr – Jun 2016

Hands-on hardware installation, software updates, system testing and technical support in retail, financial and government environments.
